With Pugh Constructors since inception in 2001

EDUCATION AND EXPERIENCE

- Texas A&M University 1989
B.S. Environmental Design

- Texas A&M University 1991
M.S. Construction Management

After receiving an Environmental Design degree and working for several Architectural firms, he decided the fast pace excitement of construction was more suitable for his management style. After briefly working for a construction company, William went back to Texas A&M for a Master’s Degree in Construction Management with an emphasis on finance. He spent the next nine years working on a variety of unique projects in San Antonio. Knowing he could produce a better project and dedicate his time to each and every one, he and Micha launched Pugh Constructors, Inc. The American Subcontractors Association has nominated Mr. Pugh for several Project Manager of the Year awards.

RESPONSIBILITIES

Mr. Pugh will personally take responsibility for all phases of the construction life cycle. He will be the authority for all communications, design input, budgeting, bidding and management of your project. He will procure and expedite all the subcontracts and purchase orders. He will preside over all project meetings. He will oversee all aspects of the construction process from preconstruction services through project startup and commissioning.
